

INFORMATION FOR WOOD BADGE 2121

Greetings Fellow Scouters:

Trained adult leaders are essential to putting on a successful scouting program for our youth. Wood Badge training goes well beyond scouting. These leadership skills will give you tools that empower you to be a more effective leader in your job, as well as in your personal life.

Yours in Scouting,
Bruce Forsyth
Course Director, WB-2121

Optional

Lightweight jacket or windbreaker
 Parka or warm coat
 Rain gear
 Tee-shirts, long and short-sleeved
 Underwear
 Socks
 Shower shoes

Note: A complete list is available on the course website.

Staying Warm

C—Clean

Wear several insulating layers of clothing. Insulation is effective when heat is trapped by dead air spaces, so keep your insulating layers clean and fluffy. Dirt, grime and perspiration can mat down those air spaces and reduce the warmth.

O—Overheating

Avoid overheating by adjusting your layers of clothing to match the outside temperature and your level of exertion. Excessive sweating can dampen your clothing and cause chilling later on.

L—Loose Layers

A steady flow of warm blood is essential to keep all parts of your body heated. Wear several loosely fitting layers of clothing and footwear that will allow maximum insulation without impeding circulation.

D-Dry

Damp clothing and skin can cause your body to cool quickly. Keep dry by avoiding cotton clothing that absorbs moisture, brush off snow before it melts and loosen clothing around your neck and chest. Don't wear waterproof clothes since body heat can drive perspiration through many layers of breathable cloth and force it out into the air.

Equipment

Hiking stove (provided by course)
 Cot or insulating pad
 Sleeping bag
 Canteen or water bottle
 Camp chair
 Flashlight with spare batteries
 Pocketknife
 Handbook for your Scouting program
 Day pack to carry items from campsite to sessions
